

Introduction to FACCE ERA-GAS

Dr Frank O'Mara, Director of Research, Teagasc and FACCE ERA-GAS Coordinator

**1st FACCE ERA-GAS Research Programme Meeting
Wageningen, 10 - 11 October 2017**

**FACCE
ERA-GAS**

MONITORING & MITIGATION OF GREENHOUSE GASES
FROM AGRI- AND SILVI-CULTURE

The project receives funding from the European Union's Horizon2020 Research & Innovation Programme under grant agreement No 696356.

FACCE
ERA-GAS

ERA-NET Cofund for Monitoring & Mitigation of Greenhouse Gases from Agri- and Silvi-culture

Public-Public Partnership supported by

Joint Transnational
Call for Research
Projects,
co-funded by the
European Commission

- Pooling resources
- Designing, coordinating and implementing a joint call and other additional activities

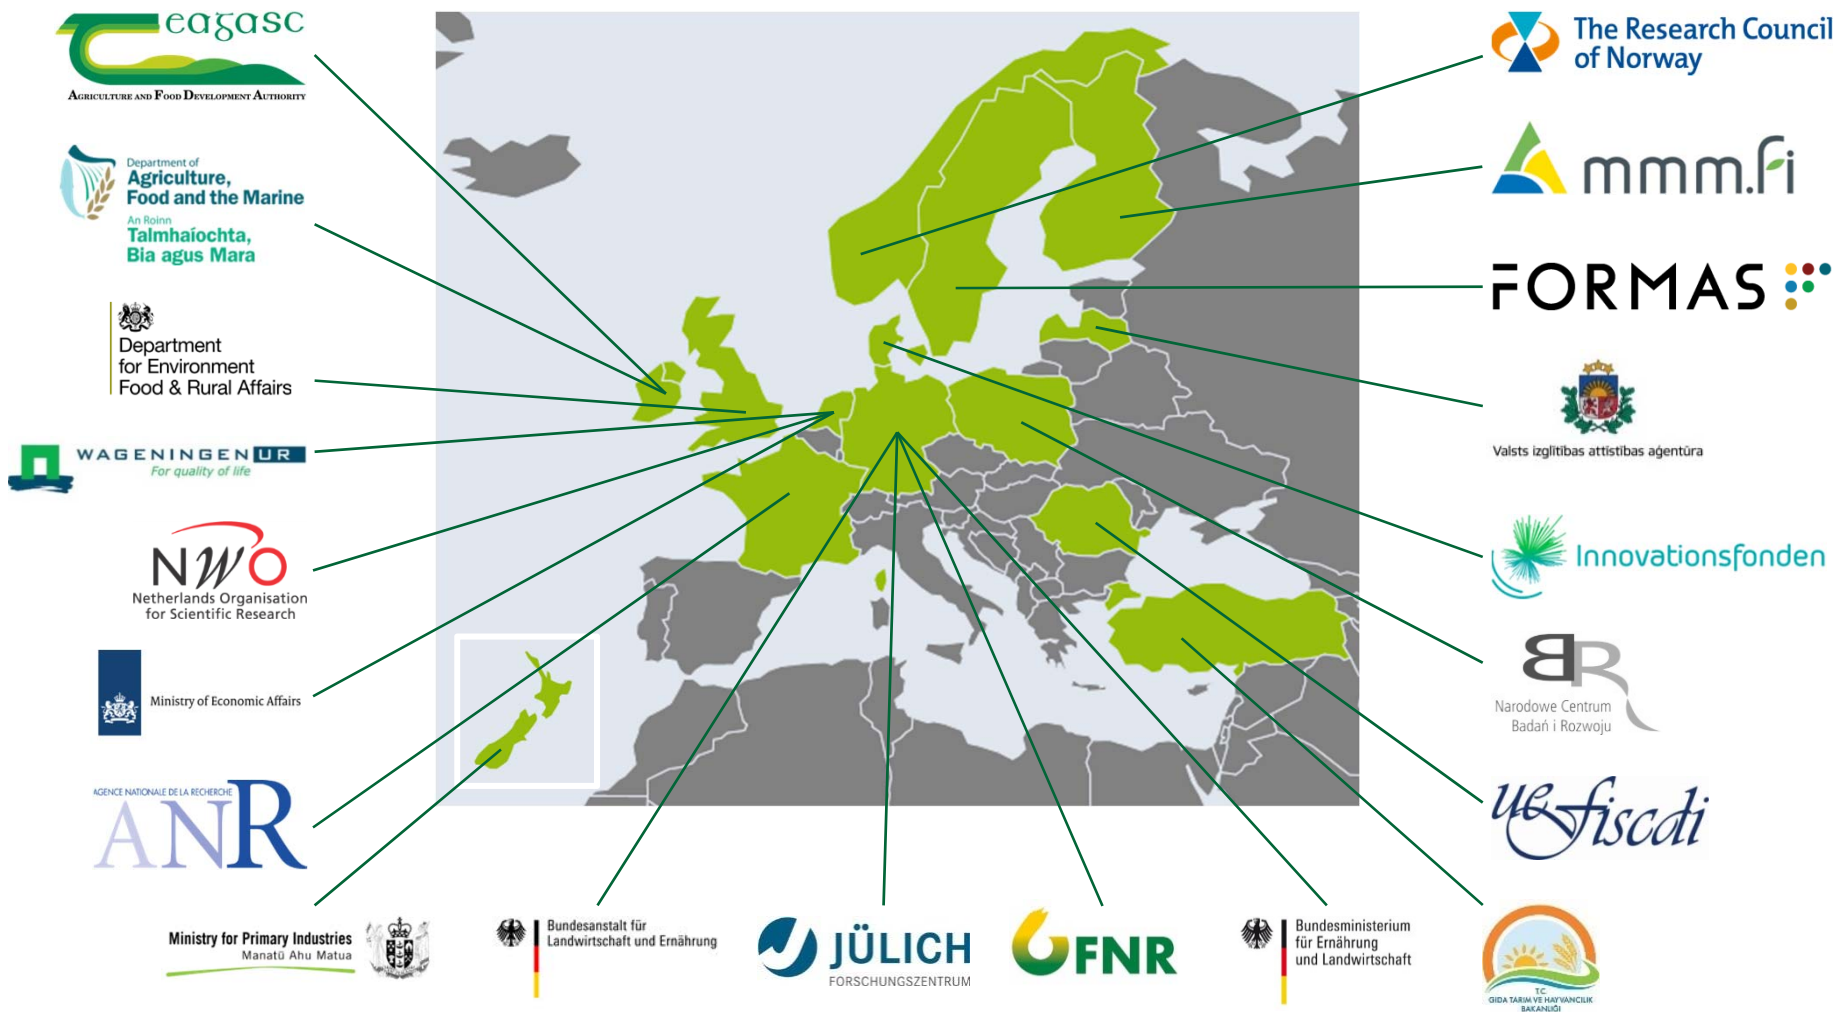

- Joint research priorities
- Common research agenda
- Harmonising activities with European and global initiatives

- Address climate change more effectively through targeted transnational efforts
- GHG solutions that go beyond the local context
- Optimal use of national funds
- Durable cooperation between partners

Consortium for 2016 Joint Call

Timeline

- **Mar 2016** Call Opening
- **May 2016** Pre-Proposal Deadline & Start of FACCE ERA-GAS
- **Dec 2016** Full Proposal Deadline
- **May 2017** Evaluation Outcomes
- **Aug-Nov 2017** Projects Start
- **Oct 2020** Project End Date
- **Apr 2021** End of ERA-GAS ERA-NET

10 FACCE ERA-GAS Projects

Overview of the Research Consortia

Wide range of topics & disciplines

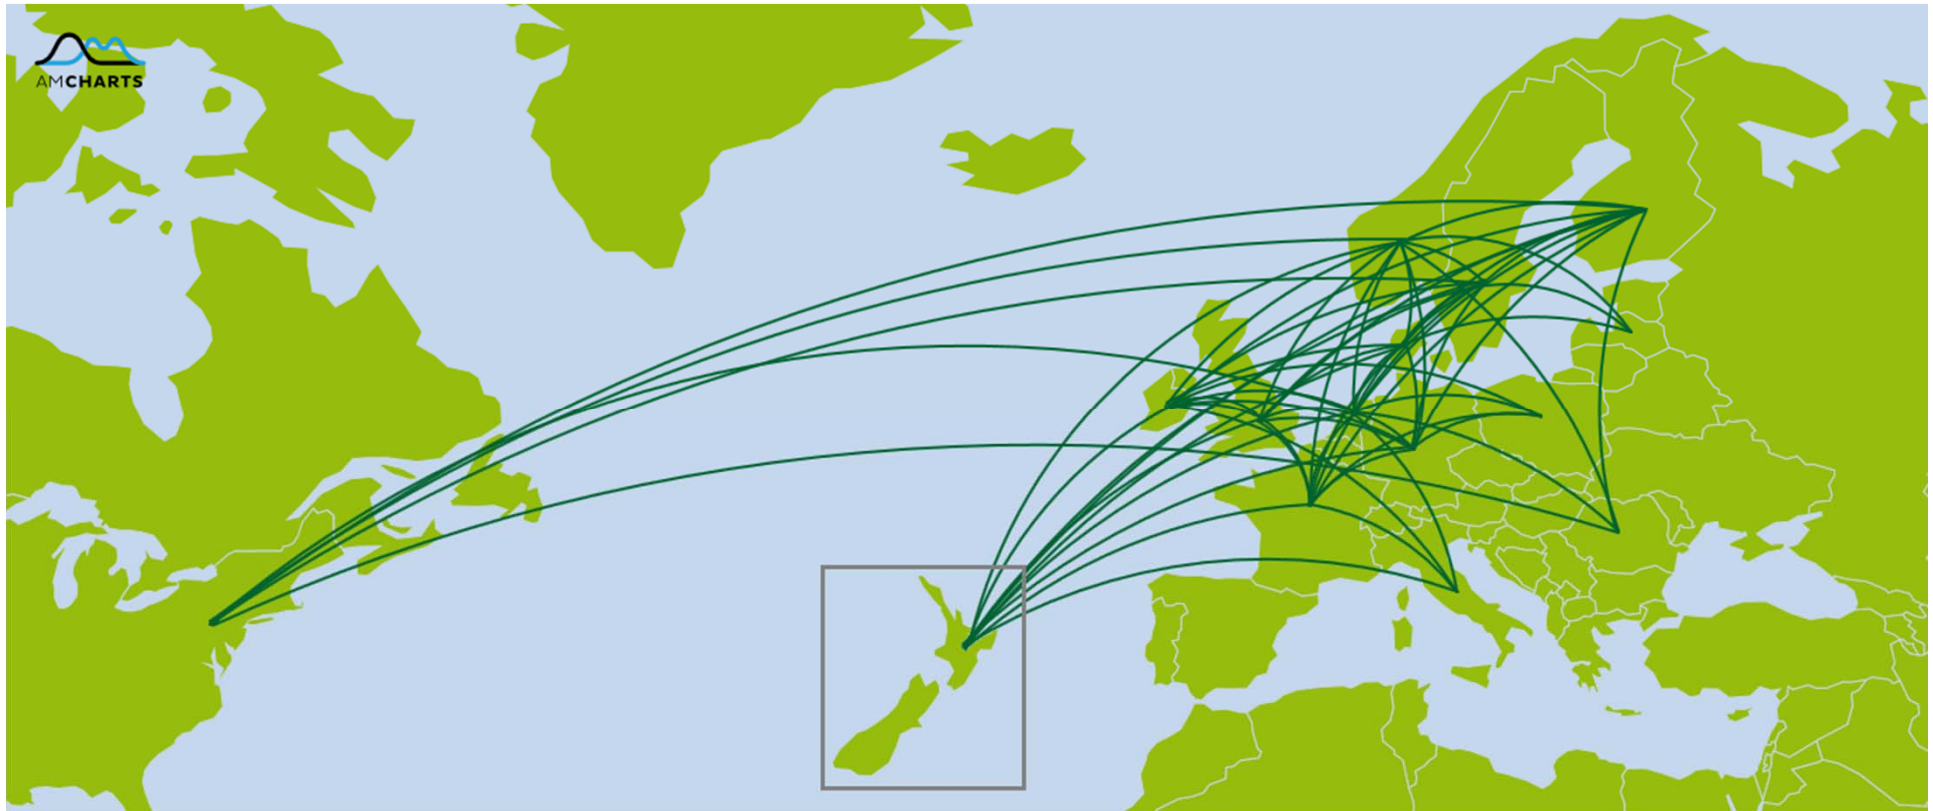

Research Themes addressed

	1 Improved inventories & MRV of emissions	2 Implementation of mitigation technologies	3 State-of-the-art production systems	4 Policy & economic measures

Network of collaborative links

Future activities

- Coordinating activities with other ERA-NETs (ERA-Net SusAn, ICT-AGRI)
- Cooperating with global initiatives (e.g. GRA)
- Engaging with stakeholders and SMEs
